*An authentic Mexican destination*

*Vive Sol is dedicated to bringing to California the best of La Cocina Barroca Poblana, the distinctive cuisine of the city and state of Puebla, in the central part of Mexico. The location of the city of Puebla is said to be chosen by the angels and its regional dishes are often thought of as heaven-sent as well. Puebla is situated in the very center of the principal route between Veracruz and Mexico City. As such, Puebla was on the main road of the empire and the principal trade route of the Baroque era, a path uniting the two hemispheres of Asia and Europe. Accordingly, the regional dishes of Puebla are many and varied. They are influenced by Spain's "Siglo de Oro," the 19th century French "haut cuisine," arriving with Maximilian of Habsburg and Carlota, by criollo and mestizo traditions, and last but not least, by the foods and recipes of the indigenous people of Puebla. Colonial Mexico was a society of enormous cultural dynamism and was the cradle of a unique and rich cuisine. The gastronomy of Puebla is alive and well and Vive Sol is pleased to play a role in extending the influence of the Baroque Pueblan cuisine to California. We use the freshest ingredients and locally-grown produce, whenever possible, to prepare all our dishes. It is our sincere pleasure to have you as our guest and we extend you a most cordial welcome.*
